SUPERINTENDENT OF SCHOOLS

KENNETH DOOLITTLE, M.A.  
PRINCIPAL

---

June 2022

Dear Rising 5<sup>th</sup>, 6<sup>th</sup> and 7<sup>th</sup> Grade Parents/Guardians,

Our Social Studies curriculum includes a community service component for our middle school students. Community service is any activity or service performed without compensation. We have discussed the requirements at length with students. The following is an overview of the program. **Please read the information, discuss it with your son or daughter, and return the signed portion to your child's Social Studies teacher in September.**

### Rationale

Service Learning/Community Service as a requirement in public school has merit in its early development on the concept of volunteerism and the ongoing need for community volunteers. Here in Wanaque, we would not have the services of fire and rescue squads without volunteers. Other community organizations in town would not be able to offer their sizable contributions either, including scouts, religious groups or senior centers, just to name a few.

Middle school students in Wanaque are expected to take part in community service as part of the regular school program in increasing hourly increments, as they move from sixth to eighth grade. We anticipate that the experience of community service will enable students to make informed choices as they move to the high school.

### Goals of Middle Service Learning/Community Service Program

- Increase awareness of community needs
- Foster sensitivity to others
- Develop a sense of responsibility beyond the self, to family and the community
- Enhance the sense of each student's own effectiveness
- Develop the habit of community service
- Demonstrate how middle school students have an impact on the community
- Address aspects of the statewide initiative in the area of character education

### Basic Requirements

- A school year consists of July through June (**summer hours count!**)
- Community service performed for other organizations (e.g., church or synagogue, scouting, etc.) count toward hours required for school.
  - Sixth graders.....10 hours of service per school year
  - Seventh graders.....15 hours of service per school year
  - Eighth graders.....20 hours of service per school year

How Service Learning/Community Service Works

- Attached are examples of possible, approved community service opportunities; all opportunities not listed must be pre-approved by the Social Studies teacher
- Each project must be approved by the parent
- The service must be performed without compensation
- Students will document hours using the Community Service Log by June 1st of each school year
- Community Service Log will be used as a graded assignment for Social Studies
- A reflective assignment may also be assigned

Sincerely,

*Kenneth Doolittle*

Principal

**COMMUNITY SERVICE**

**We have read and understand the Community Service project requirements for Middle School.**
